

One HUGE reason why Trump won!

The largest voting block of young people could not vote.

Why? They all Dead!

Over 50 million abortions in the past 25 years
robbed Democrats of millions of voters...
if those souls had been allowed to live.

If we had not been so eager to kill our youngsters
(via abortion) they would have outvoted the Trump
supporters easily. But there's no going back! They are
gone forever, never to return.

So, my liberal friends, stop aborting our young people
and you may even win another election, one of these
days; in about 18 years from the time you stop.

Millennials (age 19-36) makeup only 24% of the US Population. Age 37+ makeup 76%.
